Profile

As a Network Engineer and Cybersecurity Researcher, I specialize in network configuration, monitoring, troubleshooting, ethical hacking, vulnerability assessment, and penetration testing. I am passionate about both networking and offensive and defensive security mechanisms, with a solid foundation in networking and cybersecurity concepts. I am eager to apply my skills and knowledge to build secure, reliable, and efficient network infrastructures while protecting and enhancing organizational security, particularly in Network Security and Vulnerability Assessment and Penetration Testing (VAPT).

Professional Experience

Cybersecurity Intern, *Hackware Security Solutions* — **2025/01 – 2025/04** — **Kochi, India**

- Conducted VAPT for networks, web applications and Android apps.
- Assisted in security audits and risk mitigation to reduce security threats.
- Assisted with endpoint security and incident response operations.

Cybersecurity Student Trainee, *Offenso Hackers Academy* — **2024/03 – 2025/03** — **Kochi, India**

- Performed VAPT and security testing in controlled lab environments.
- Participated in CTF challenges covering Linux, cryptography, and web security.
- Monitored security events using Splunk and Wazuh SIEM for anomaly and threat detection.

Projects

ExamProctor — Online Examination System

Developed an AI-powered online examination system with real-time monitoring and automated analysis to detect suspicious activities and improve exam security.

Node.js · React · PostgreSQL

SysPulse — Windows Monitoring Application

Developed a Windows desktop application for real-time system performance, process, and file activity monitoring, including application installation and modification tracking.

C# · WPF · .NET 10 · Windows APIs

Education

Bachelor of Computer Application (BCA), *Ignou University* — **2022 – 2025** — **Vatakara, India**

Advanced Diploma in Information Security (ADIS), *Offenso Hackers Academy* — **2024/03 – 2025/03** — **Kochi, India**

Cisco Certified Network Associate(CCNA), *Mohan's Networking institute* — **2026/09 – Present** — **Bengaluru, India**

Skills

- Routing & Switching
- Subnetting
- ACLs & VPN
- AD Pentesting
- Python, C, C++
- PC Building & Configuration
- OS: Linux, Windows
- Vulnerability Assessment

Tools

Wireshark | Putty | CISCO Packet Tracer | Burp Suite | Nessus Enterprise | Splunk | Wazuh | John the Ripper |

Certifications

CompTIA PenTest+

Advanced Diploma in Information Security (ADIS)

Python Programming

CCNA
